Bonn, March 18, 2021

Dear members of the German Society
of Oto-Rhino-Laryngology, Head and Neck Surgery,
Dear colleagues
Dear friends of our annual meeting,

in view of the current corona situation and the expected increase in corona incidence, the presidents of the congress and the entire presidium of the German ORL-Society consider the planning of an attendance event in hybrid format with a very limited number of participants on May 12 to be no longer feasible.

In this respect, we had to make a clear decision and focus our organizational efforts **on an online format also of the commemorative event 100 years DGHNO (actually planned presence day) - on May 12 in Berlin.**

Of course, we all would have very much liked to hold a worthy ceremony of the 100th anniversary of our professional society with ceremonial lectures, awards and honors in a festive touching atmosphere on the big stage in the Estrel as a hybrid with wonderful personal "get-together". Nevertheless, we are very confident to be able to celebrate a similarly worthy online event together with you also under the current circumstances.

Registration for participation in the ENT Online Congress 2021 has been possible since March 15, 2021 via www.hno-kongress.de -> [Registration](#).

We ask for your understanding that the sending of the 2021 congress program has overlapped with the necessary change of the attendance day on May 12 at the Estrel CC in Berlin. The schedule and organization of this day in online format will be available on the congress website in due time.

We are very much looking forward to a highly interesting congress with many new impulses, which will take place in a very appealing new web portal. You may be curious. Let's all make the best of it!

With best regards

Yours

Prof. Dr. med. S. K. Plontke
Congresspresident 2021
